

How to listen to deleted voicemails

Last Modified on 10/05/2015 9:07 am PDT

1. Press the *Voicemail* button.
2. Press the *Call VM* button (located just below the screen)
3. From the voicemail Main Menu, press **7** to access *Mailbox Options*.
4. Press **7** to listen to deleted messages (you can manage these messages as if they were new messages).

Note: Once you delete your messages you will be able to retrieve them until midnight of that night, after that they will be permanently removed from the system.
