Locating your MAC address

Last Modified on 09/29/2025 9:58 am PDT

Xbox One

1. Press the Menu button on your controller, select Settings, and then select Network.

2. Select advanced settings

3. Use Wireless Mac address

Xbox X/S

1. Find My Xbox in the Xbox Dashboard and select Settings

2. Under General, Select Network Settings

3. Select Advanced Settings from the Network Settings tab

4. You will see the MAC address for Wire and Wireless, choose Wireless (Wi-Fi)

Sony PlayStation 4

1. Turn on your Playstation 4 without any disk in the drive and wait for the menu to pop up.

2. Navigate to the "Settings" icon (located on the far left).

3. Select the "System" icon under the Settings menu.

4. Select "System Information."

5. Write down your "MAC Address (Wi-Fi)."

Sony PlayStation 5

1. Go to "Settings"

2. Select System Software, Select Console Information

3. You will see the MAC address for both LAN and Wi-Fi -- choose the Wi-fi

Nintendo Switch

1. From the HOME menu, highlight and select the System Settings Icon.

2. Select "Internet Settings."

3. Tap "Other Information."

4. Tap "Confirm MAC Address." Your system's MAC Address will be displayed on the screen.

Amazon Echo

1. Download the Amazon Alexa app to your phone or computer and sign in with your Amazon account.

2. Connect to the wireless network transmitted by your Echo device.

3. The wireless MAC address for your Echo can be found at the bottom of the Echo Setup screen in the Alexa app.

Amazon Fire Stick

1. Go to Settings > System > About > Network.
2. Copy the MAC address.
