Downloading the Zoom Client

Last Modified on 03/10/2021 1:23 pm PST

PC

The easiest way to install Zoom is to download the installers from here. The first two files are for the PC. When you click on these files one at a time, they will be downloaded to your downloads folder. Double click the .exe file from there.

Zoom.exe

Zoom.msi

Mac

The Mac file is a zip file. Double click the file to begin the installation.
