

Allowing others to Share their screens in Zoom

Last Modified on 10/26/2022 11:34 am PDT

To cut down on unwanted attendees sharing their screens, Zoom has taken an additional step by disallowing participants to share their screens by default. To allow others to share their screens, click on the up-arrow next to "Share" on the host's computer.

In the box that opens, select "Advanced"

From the Advanced Sharing Options, allow participants to share their screens.

- 1) Choose how many individuals can share
- 2) Choose "Who" can share
- 3) Choose who can share when someone else is sharing

Advanced Sharing Options... ✕

How many participants can share at the same time?

One participant can share at a time

Multiple participants can share simultaneously (dual monitors recommended)

Who can share?

Only Host All Participants

Who can start sharing when someone else is sharing?

Only Host All Participants
