

# Adding Apporto Virtual Lab to a Canvas Course

Last Modified on 07/12/2024 3:38 pm PDT

**Note: To add additional software titles, contact ITS and please allow 2-3 days**

Please contact the Cal Lutheran Helpdesk (x3698 or helpdesk@callutheran.edu) to enable Virtual Classroom settings and to request access to university owned software. Follow the steps below to add the Apporto tool to your course.

To Add Apporto as a tool to a Canvas course select settings then navigation.

The screenshot shows the Canvas LMS interface for a course titled "Technology Training Community". The left sidebar contains various navigation options, with "Settings" highlighted. The main content area shows the "Settings" page with the "Navigation" tab selected. A warning message states: "Warning: For improved accessibility in reordering, drag and drop items to reorder them in the course navigation." Below this, there are two sections: "Drag and drop items to reorder them in the course navigation." and "Drag items here to hide them from students." The first section contains a table with the following items:

Home	
Announcements	⋮
Discussions	⋮
Modules	⋮

The second section contains a table with the following items:

SCORM	⋮
Page disabled, won't appear in navigation	
Accepi integration	⋮
Page disabled, won't appear in navigation	
Windows Desktop	⋮
Page disabled, won't appear in navigation
