

Connect to WiFi

Last Modified on 08/02/2025 5:46 pm PDT

Unable to Connect to WiFi?

Step 1: Open Your Browser

Navigate to your preferred web browser (Chrome, Firefox, Safari, etc.).

Step 2: Go to the Login Page

In the address bar, type:

wireless.callutheran.edu

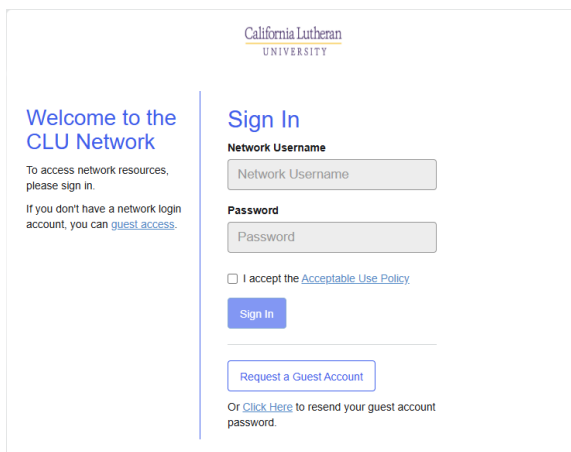

Press Enter and you should be redirected to the wireless login page.

Step 3: Sign In

Enter your university **Username** and **Password**.

Check the box for the *Acceptable Use Policy*, then click **Sign In**.

The screenshot shows the login page for California Lutheran University's wireless network. On the left, a 'Welcome to the CLU Network' message states that users must sign in to access resources and provides a link for guest access. On the right, the 'Sign In' section contains input fields for 'Network Username' and 'Password'. Below these fields is a checkbox for accepting the 'Acceptable Use Policy' and a 'Sign In' button. At the bottom, there is a 'Request a Guest Account' button and a link to resend a guest account password.

Step 4: You're Connected

If you followed the steps correctly, your device should now be connected to WiFi.

If not, continue to the troubleshooting section below or contact support.

Troubleshooting

- Restart your device and try again
- Forget the network and reconnect
- Ensure you're using your correct campus credentials
